

## Certificate of compliance for biocompatibility tests

**Testmaterial:** PA1101 refreshed powder (50% new powder + 50% recycled powder from EOSINT P System)

**Batch No.:** 919822

**Sterility/Sterilisation method:** Unsterile

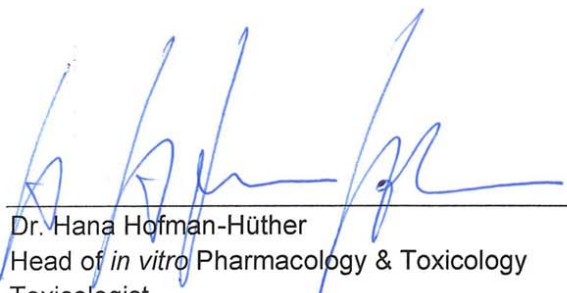

**Supplier:** EOS GmbH, Electro Optical Systems, Robert-Stirling-Ring 1, 82152 Krailing, Germany

**Studies performed:** The following study was performed in order to determine the biocompatibility of the product PA1101 refreshed powder (50% new powder + 50% recycled powder from EOSINT P System) using *in vivo* methods according to ISO 10993-1, 10993-10 and 10993-12:

**Irritation Test (Intracutaneous Reactivity) in the Rabbit**  
(BSL Munich Study No. 155805)

**Skin Sensitisation (Guinea Pig Maximisation Test)**  
(BSL Munich Study No.155806 A/B)

**Results:** The product did pass all requirements in the studies performed. The biological tests did not show significant findings, so this part of biocompatibility testing was fulfilled.
